Report on the evaluation of pre-departure training 6

The staff and/or teachers/trainers from each partner organisation met with the adult learners who were about to take part in the next mobility activity in order to help prepare them for the experience. Afterwards, the representatives from all partner organisations participated in a Skype conference to analyse the results of the evaluation and agree on what changes needed to be made (if needed). Their conclusions are presented in the section: "Conclusions by project partners" at the end of this document.

How would you improve this section of the pre-departure training?

- We think it would be useful to have more information about the host organization and some information about the best practice that is going to be discussed.
- A list of participants would be also useful.

6) Fears, expectations and contributions. Feedback:

- There are some fears related to linguistic barriers, expectations of other participants. Some of the participants are Hungarian speakers and even have difficulties in using Romanian language. Their knowledge of English also needs improvement.

- More information about the content of the activities and the expectations of the host organizations would be helpful to prepare the adult learners.

Conclusions by project partners:

From the feedback of the adult learners received by the staff of each organisation during the evaluation, the average satisfaction level was satisfactory and no further modifications will be made to the next version of the "Pre-departure Training". However, from the above comments and after the skype conference between partners, it was noted the following modifications which will be implemented:

1- The final hosting partner will try to provide further information about the content of the activities before the meeting but all partners are aware of the short time between meetings making it difficult to provide all the information on time for the pre-departure training.
